Mahendragarh, Haryana
GitHub: github.com/samirsonar

CAREER OBJECTIVE

Motivated MSc Data Science student with strong foundational knowledge in Python, Statistics, Data Analysis, Excel, Power BI and Machine Learning. Seeking an entry-level Data Scientist / Data Analyst role in Delhi NCR to apply analytical skills, build data-driven solutions, and contribute to organizational growth through insights and automation.

EDUCATION

MSc – Data Science
(Central University of Haryana), Mahendragarh, Haryana 2024
– Present

BCA
(Dibrugarh University), Assam
2021 – 2024

TECHNICAL SKILLS

Programming: Python, SQL
Libraries & Tools: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
Data Visualization: Power BI, Excel
Statistics: Probability, Hypothesis Testing, Regression
Machine Learning- Deep Learning
Tools & Platforms: Jupyter Notebook, GitHub

ACADEMIC PROJECTS

Sales forecasting using Machine Learning

- Built a machine learning model to predict customer churn using real-world dataset
- Performed data cleaning, exploratory data analysis, and feature engineering
- Implemented Logistic Regression, Decision Tree, Time Series models and Clustering
- Evaluated model performance using accuracy and confusion matrix

Sales Performance Dashboard (Power BI Project)

- Designed an interactive Power BI dashboard to analyze sales trends

- Visualized KPIs such as revenue, region-wise performance, and growth rate
- Enabled data-driven decision-making through dynamic reporting

Extra Projects

- I completed some projects (Hospital Management, Online Auction) during my under graduation

---

DISSERTATION PROJECT

Academic Data Analysis Project

- Worked on a real dataset as part of MSc dissertation
- Applied data preprocessing, visualization, and statistical techniques
- Extracted meaningful insights and presented findings in report format

---

CERTIFICATIONS

- Data Science Training and Internship Certificate
- Project Certificate on “Sales forecasting using Machine Learning”
- Python for Data Science – (Online Course)
- Introduction to Data analytics – (Online Course)

SOFT SKILLS

- Analytical Thinking
- Problem Solving
- Quick Learner
- Team Collaboration
- Effective Communication
